KOLKATA THIS WEEKEND

THE SOCIAL FEED FOR GOING OUT

Everything happening in Kolkata, this weekend.

A city-first discovery platform connecting people with events, experiences, food, culture, nightlife, communities and things worth going out for.

DISCOVER • SAVE • SHARE • GO

Product Vision

Kolkata This Weekend is designed to become the first place a person checks when they have free time and want to know what is happening around them.

THE PROBLEM

Information is fragmented across Instagram, ticketing sites, community groups, venue pages and posters.

THE SOLUTION

One local discovery layer that structures, filters and curates what already exists.

THE PROMISE

Discover more. Stay updated. No unnecessary consumer charges.

PRODUCT LOOP

North-star principle: own the discovery moment, not the event.

Market & Positioning

The product sits between social discovery, local guides, event directories and ticketing. It should not try to replace them; it should make their fragmented supply easier to discover.

POSITIONING

The Instagram for what’s happening around you.
Kolkata’s events, experiences, food, culture, nightlife and local activities — discovered in one place.

User Personas

WEEKEND EXPLORER

“I’m free Saturday. What should I do?” Needs fast discovery, filters and shareable plans.

EXPERIENCE SEEKER

“I want something different.” Needs workshops, culture, food, music and hidden experiences.

LOCAL ORGANIZER

“People need to know about my event.” Needs discovery, submissions, claims and analytics.

CITY NEWCOMER

“What is happening in Kolkata?” Needs a simple, trustworthy overview of the city scene.

Something different

Core Product Experience

EVENT CARD DESIGN

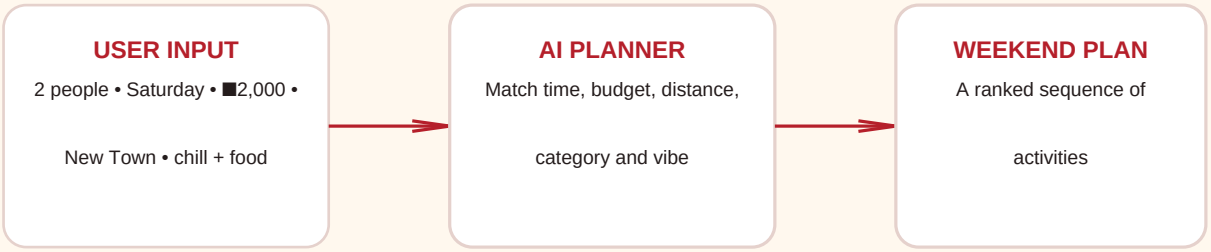

Hero image → category pill → title → date/time → location → price → save → share → original source. The card should feel like a social post, not a spreadsheet row.

UX RULE

Every screen should answer one question quickly: What is happening? Is it relevant? Where is it? How much? What do I do next?

Build My Weekend

The user describes the kind of day they want. The system converts intent into a practical sequence using the event database.

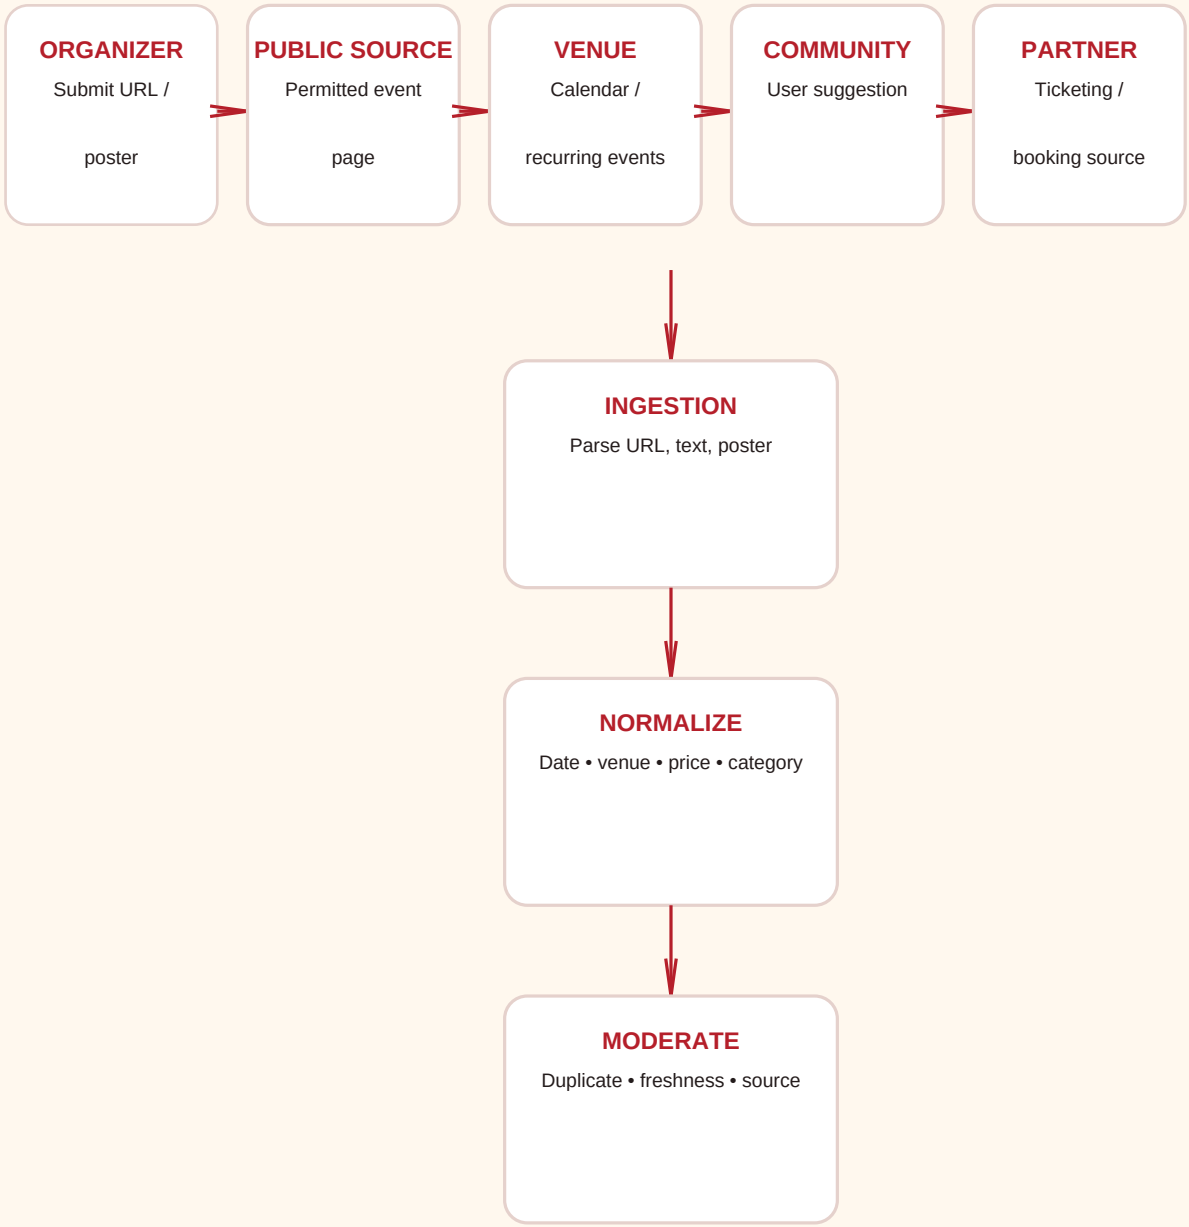

EXAMPLE OUTPUT

4:00 PM	**Cafe / Brunch**
5:30 PM	**Workshop**
8:00 PM	**Dinner**
9:30 PM	**Live Music** End with a social experience

IMPORTANT

Recommendations should link to the original organizer or booking source. The platform can own discovery without owning inventory.

Content & Data Pipeline

DATA RULE

Store one canonical event with many possible sources. This prevents duplicate cards when the same event appears on multiple platforms.

RESULT: MORE LOCAL SUPPLY → BETTER DISCOVERY → MORE USERS

Monetization

1. **SPONSORED DISCOVERY**
   Clearly labelled promoted events and venues.
2. **AFFILIATE / REFERRAL**
   Commission from ticketing and booking partners.
3. **ORGANIZER PRO**
   Analytics, boosts, profile tools and distribution.
4. **VENUE PARTNERSHIPS**
   Packages for cafés, studios, clubs and hotels.
5. **CITY CAMPAIGNS**
   Seasonal guides, festivals and brand partnerships.

TRUST MODEL

Discovery remains free. Paid placements are visibly labelled. Avoid hidden consumer fees. The platform earns because it creates useful demand for the ecosystem.

ANALYTICS

Views • saves • clicks

CANONICAL EVENT MODEL

Event identity should be separate from source identity. Multiple sources can point to one event.

CONTENT SAFETY

Respect terms, licensing, copyright, privacy and takedown requirements.

SCALE

Start with simple relational search. Add vector/semantic layers only when real usage justifies them.

Data Model

EVENT
title • time • price • category

VENUE
name • address • coordinates

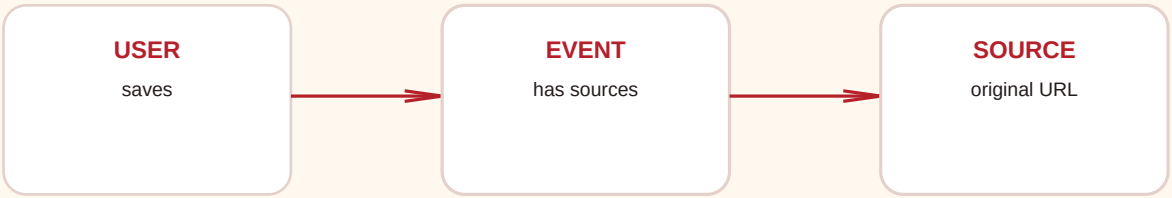

ORGANIZER
identity • social • verification

SOURCE
url • platform • captured_at

USER
preferences • saved_events

INTERACTION
view • save • share • click

RELATIONSHIP

One canonical event can have many sources; one organizer can publish many events; users create behavioural signals through saves, shares and outbound clicks.

Kolkata Launch Plan

WEEK 1–2

SEED

100–300 quality listings across music, food, workshops, culture, comedy, sports and nightlife.

WEEK 2–4

ORGANIZERS

Direct outreach to cafés, studios, communities, colleges, venues and creators.

MONTH 2

SOCIAL

Daily/weekly “Kolkata This Weekend” content and shareable cards.

MONTH 3

PERSONALIZE

Use saves, clicks and filters to improve ranking.

NEXT CITY

REPLICATE

Only after Kolkata develops strong repeat usage.

CONTENT ENGINE

Every week publish a concise “What’s happening in Kolkata this weekend?” roundup. This becomes both a marketing asset and an SEO/discovery surface.

DEFENSIBILITY

Local dataset

Structured, fresh knowledge of Kolkata’s event ecosystem.

Behavioural graph

Saves, shares and clicks improve recommendations.

Organizer network

Direct relationships create better supply.

Brand habit

Become the default “what should I do?” destination.

Brand System & Bio

#B51F2A	#FFF8EE	#241C1C	#F7E3E1

THE INSTAGRAM FOR WHAT’S HAPPENING AROUND YOU.

INSTAGRAM BIO

The Instagram for what’s happening around you. ■ ■ Kolkata events & experiences ■ Discover. Stay updated. ■ No extra charges.

VOICE

Short. Local. Confident. Curious. Never corporate. The brand should sound like a friend who always knows what is happening in the city.

Risks, Rules & Final Definition

STALE EVENTS

Expiry + confirmation + moderation

DUPLICATES

Canonical event identity

SOURCE DEPENDENCY

Multiple acquisition channels

COPYRIGHT

Attribution + permitted usage + takedown

SPAM

Submission review + organizer verification

LOW DIFFERENTIATION

Win through local freshness + intent

FINAL PRODUCT DEFINITION

Kolkata This Weekend is a social discovery layer for Kolkata that brings the city’s scattered events and experiences into one visual, searchable and shareable feed — helping people discover what is happening around them without requiring the platform to own the events.

THE STRATEGIC PRINCIPLE

OWN THE DISCOVERY MOMENT, NOT THE EVENT. Let organizers keep their audiences and booking systems. Kolkata This Weekend becomes the first place people check when they have time and want something worth doing.
